Vancouver Island Health Authority

# Introductions Your Turn!

How many audience members attended the presentation last week?

Yes or No

#### Overview

- What is SLP?
- Parkinson Disease (PD) and SLP
- Speech and Voice
- Strategies and Options
- Questions

#### Objectives

#### By the end of this presentation...

- Awareness of SLP role in PD
- Familiarity with speech and voice in PD
- Acquaintance with strategies
- Feel empowered in pursuing SLP services

#### Objectives

#### By the end of this presentation...

- Awareness of SLP role in PD
- Familiarity with speech and voice in PD
- Acquaintance with strategies
- Feel empowered in pursuing SLP services

## What is SLP?

#### **Scope of Practice**

- Speech sound production
- Resonance
- Voice
- Fluency
- Feeding and swallowing
- Saliva management
- Language comprehension and expression
- Cognitive communication
- Alternative and augmentative communication
- Social (pragmatic) communication
- Pre-linguistic communication
- Pre-literacy and literacy skills
- Aural (re)habilitation
- Accent modification
- Technology

#### **Areas of Work**

- Hospitals
- Public health units
- Community health centres
- Schools
- Private practice
- Nursing homes and long-term care facilities
- Childcare settings
- Patient or client homes
- Corporate settings
- Correctional facilities
- Professional associations
- Regulatory bodies
- Universities and colleges
- Government ministries

(Speech-Language & Audiology Canada, 2016)

# Parkinson Disease (PD) and SLP

#### People with PD can develop changes in

- Speech and Voice
- Swallowing
- Saliva Management
- Language and Cognitive-Communication

#### People with PD can develop changes in

• Speech and Voice – 90%

(Baumann et al., 2018)

Swallowing – up to 95%

(López-Liria et al., 2020; Pflug et al., 2017)

Saliva Management – up to 81%

(Wamelen et al., 2020; Damian et al., 2012)

• Language and Cognitive-Communication – up to 80%

(Hely et al., 2008)

#### People with PD can develop changes in

• Speech and Voice – 90%

(Baumann et al., 2018)

Swallowing – up to 95%

(López-Liria et al., 2020; Pflug et al., 2017)

Saliva Management – up to 81%

(Wamelen et al., 2020; Damian et al., 2012)

• Language and Cognitive-Communication – up to 80% (Hely et al., 2008)

#### **Everyone** is different

#### Test your knowledge!

Changes in communication and swallowing in PD can be resolved by taking medication

True or False

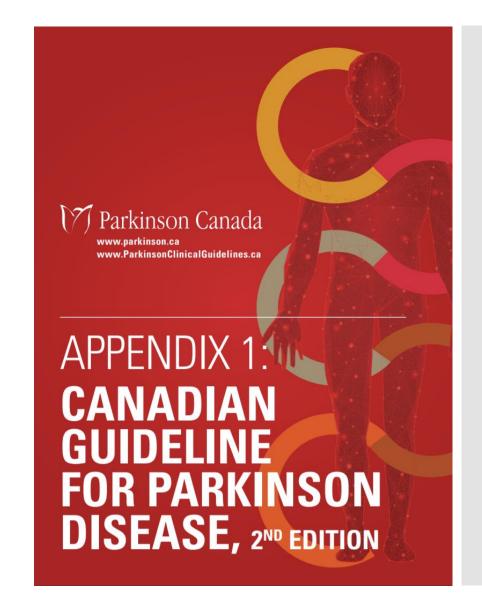

#### Test your knowledge!

Changes in communication and swallowing in PD can be resolved by taking medication

"Speech and language therapy is essential to Parkinson patient's quality of life"

(Parkinson Canada, 2019)

### Speech and Voice

#### **Sections**

- Introduction
- Anatomy
- Speech and Voice in PD
- Additional Considerations

# "One of the hardest things in life is having words in your heart that you can't utter"

James Earl Jones, Parkinson Voice Project

#### **Importance**

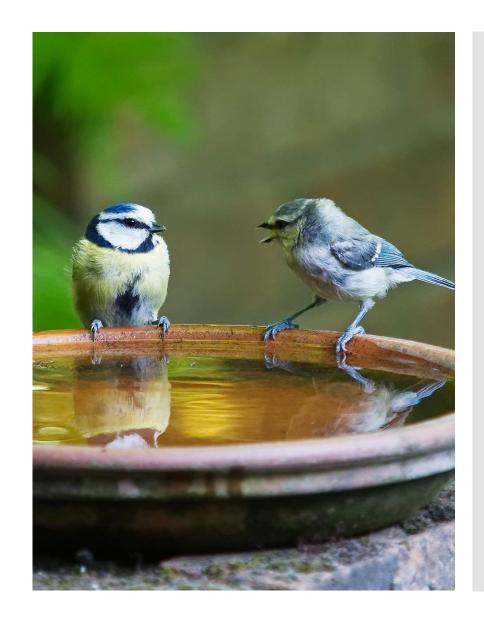

- Social stigma
- Embarrassment
- Isolation
- Dignity
- Quality of life
- Emergency situations

"If my possessions were taken from me with one exception, I would choose to keep the power of communication, for by it I would soon regain all the rest"

Daniel Webster, LSVT Global

# Think Big... Communication

What are some ways we communicate?

What are some ways we communicate?

Talking
Gesturing
Showing

What are some ways we communicate?

Touching
Facial Expression
Tone and Intonation

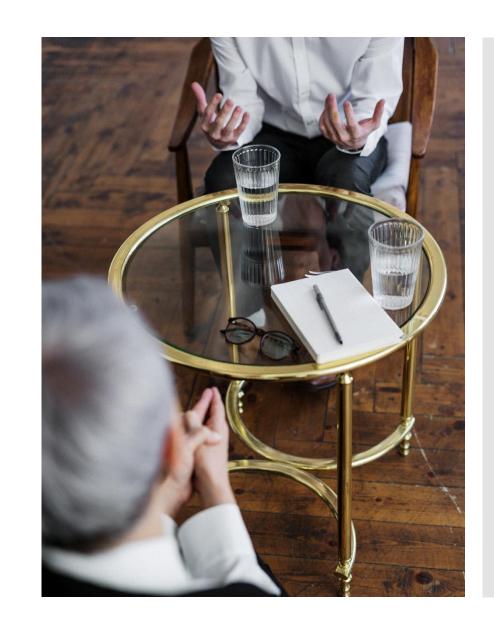

What are some ways we communicate?

Eye Contact

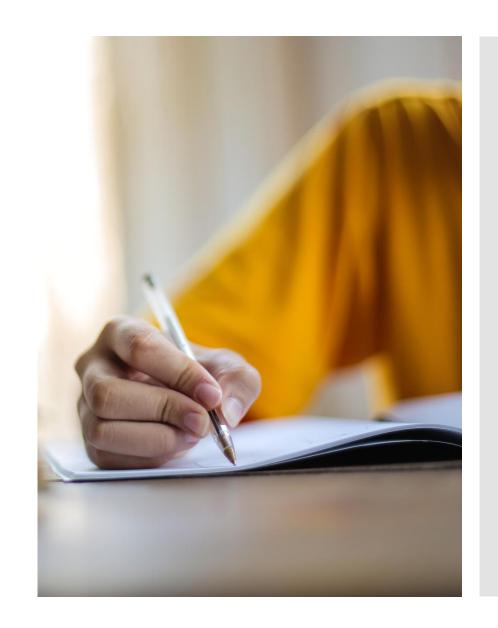

Body Language

Engagement Cues

What are some ways we communicate?

Electronically
Writing
Drawing

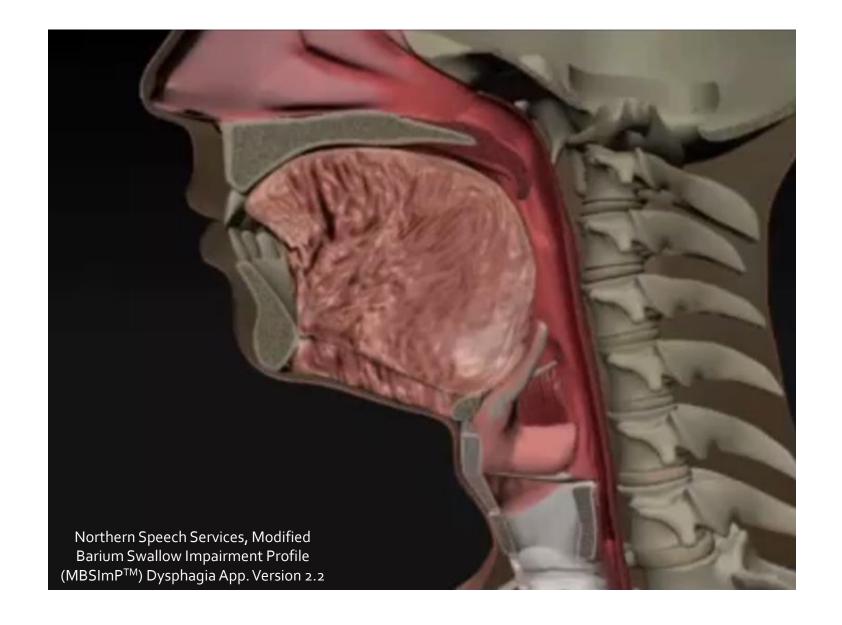

Think Specific...

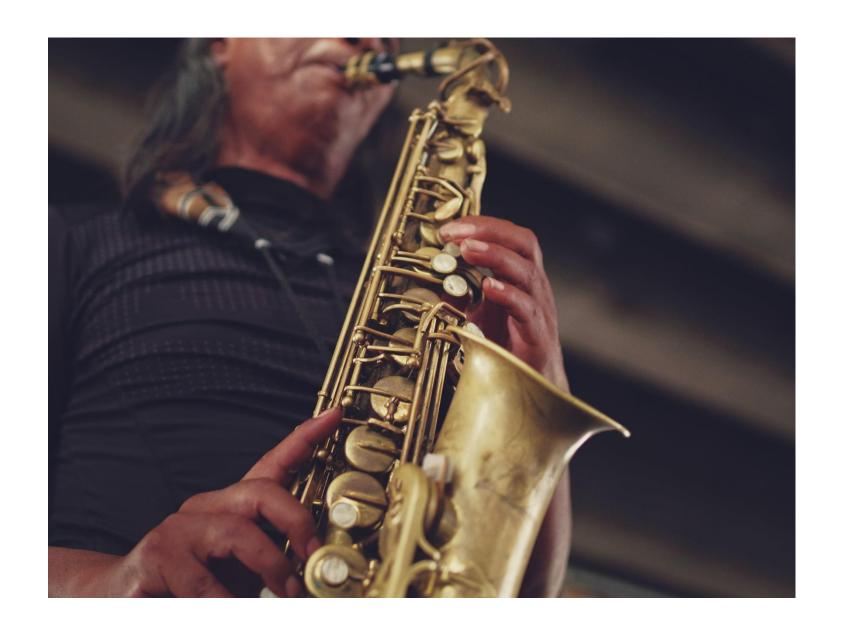

Speech and Voice

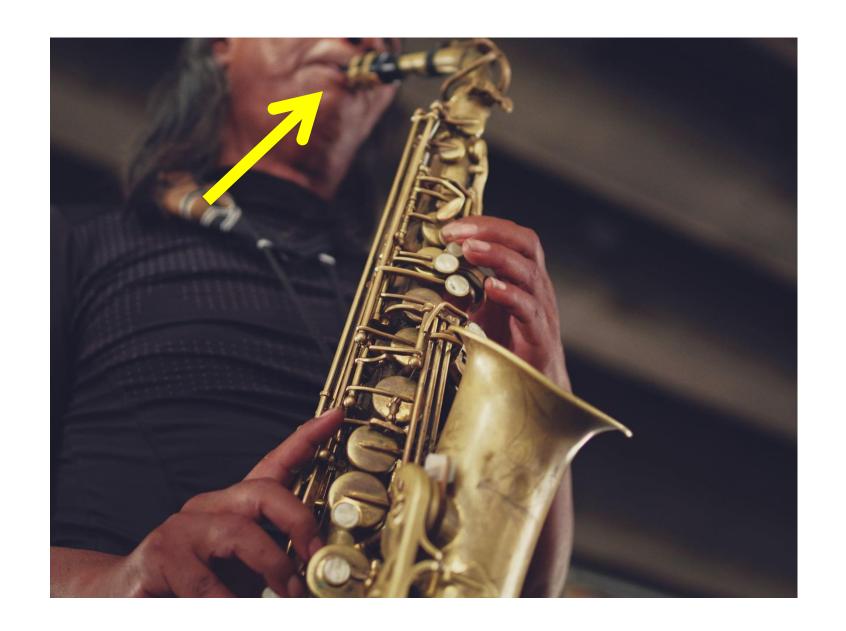

#### Video

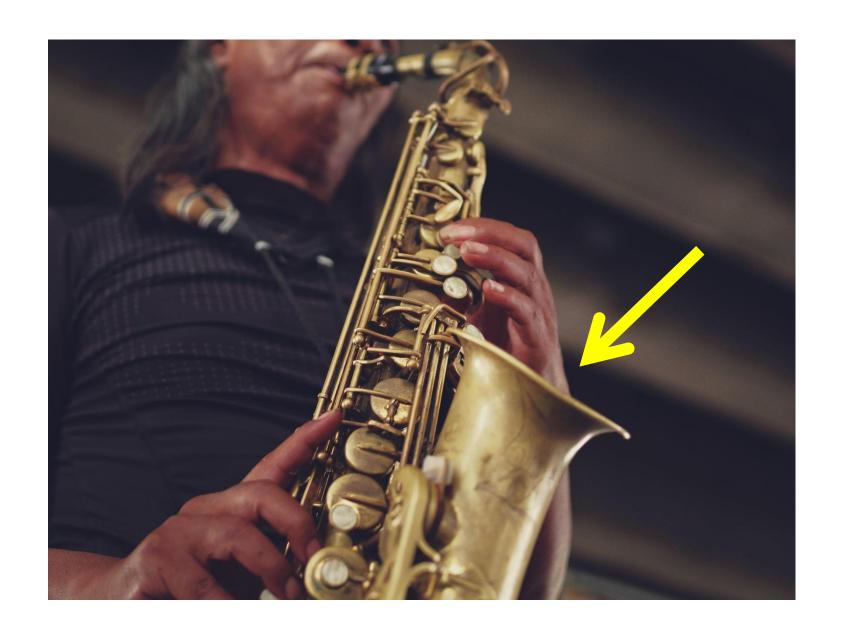

#### **Tyley Ross Voice**

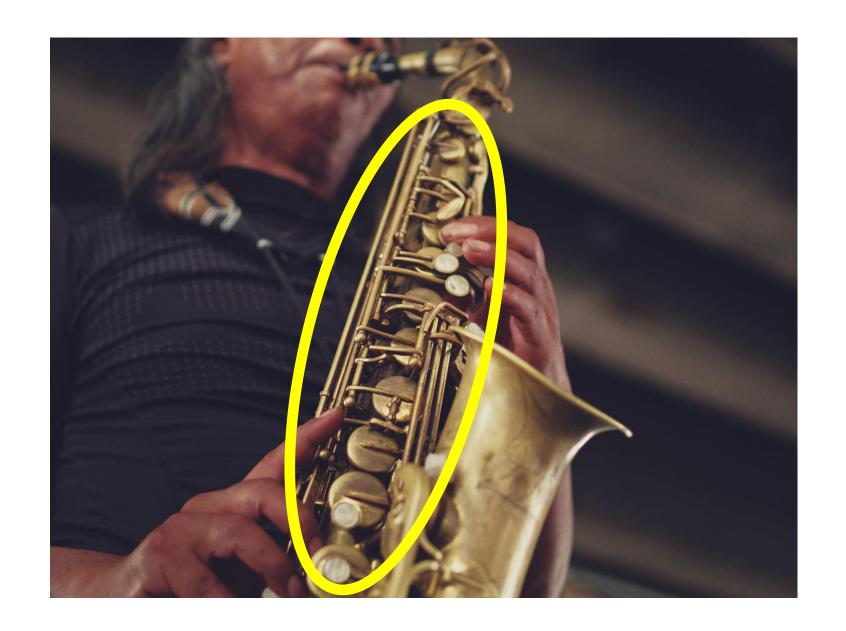

https://www.youtube.com/watch?v=J3TwTb-To44&list=PL7TNe5tKMpG6S57Gn7AszyRhDNOyjlcBv&index=6

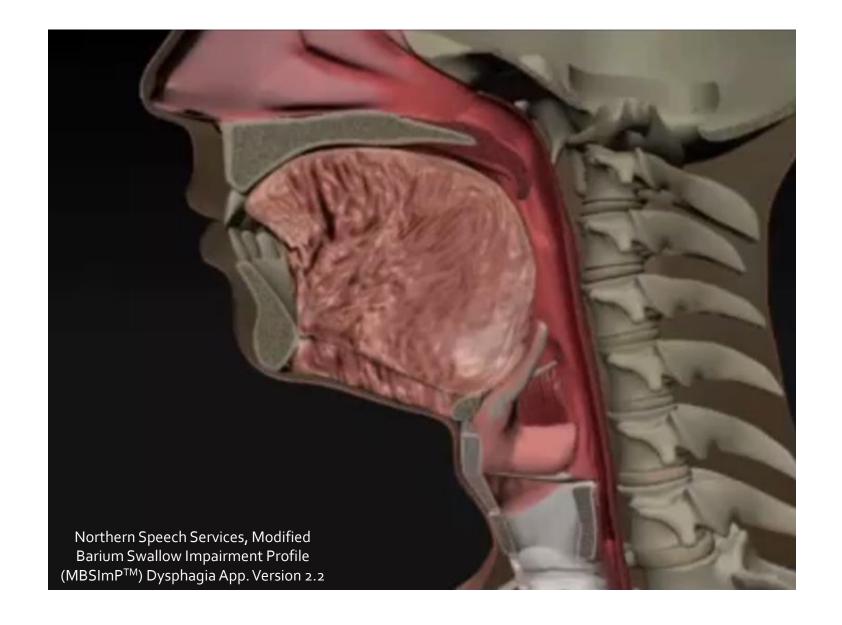

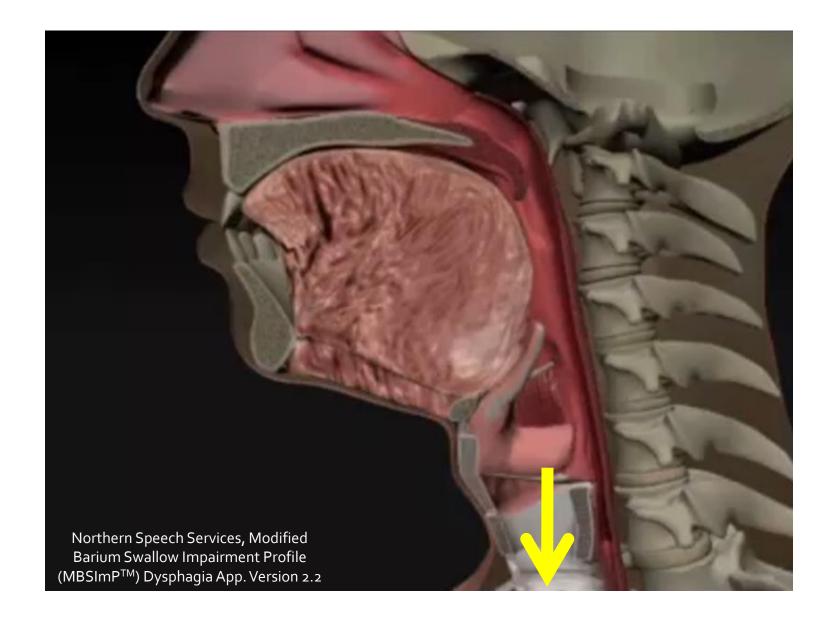

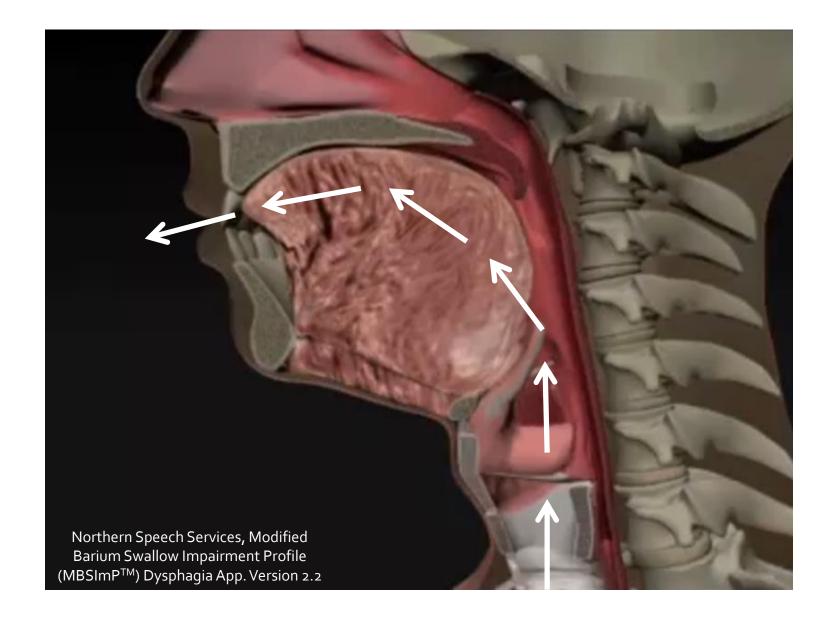

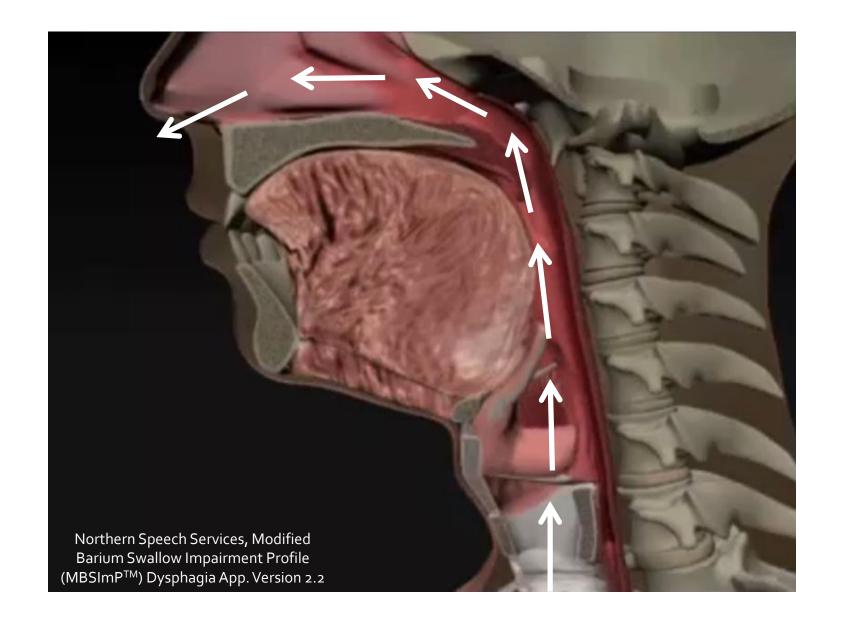

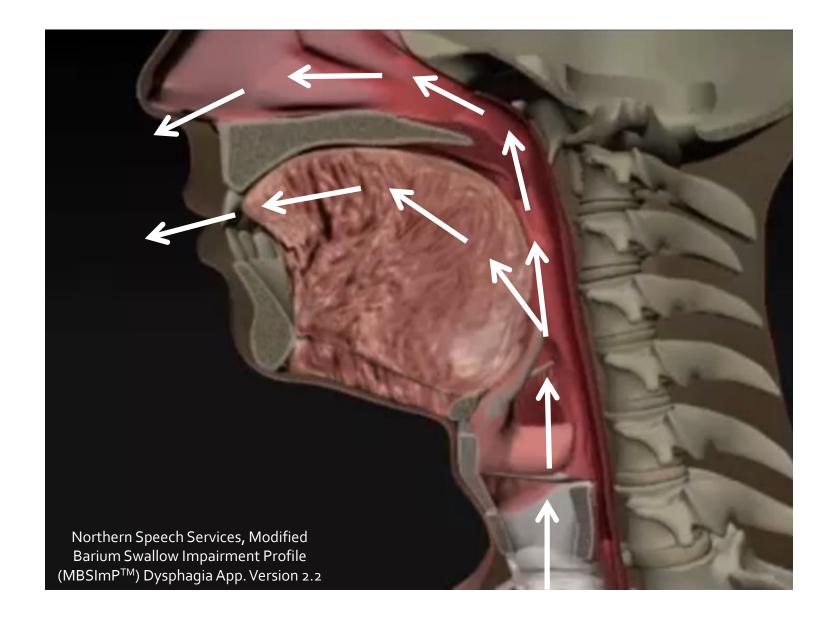

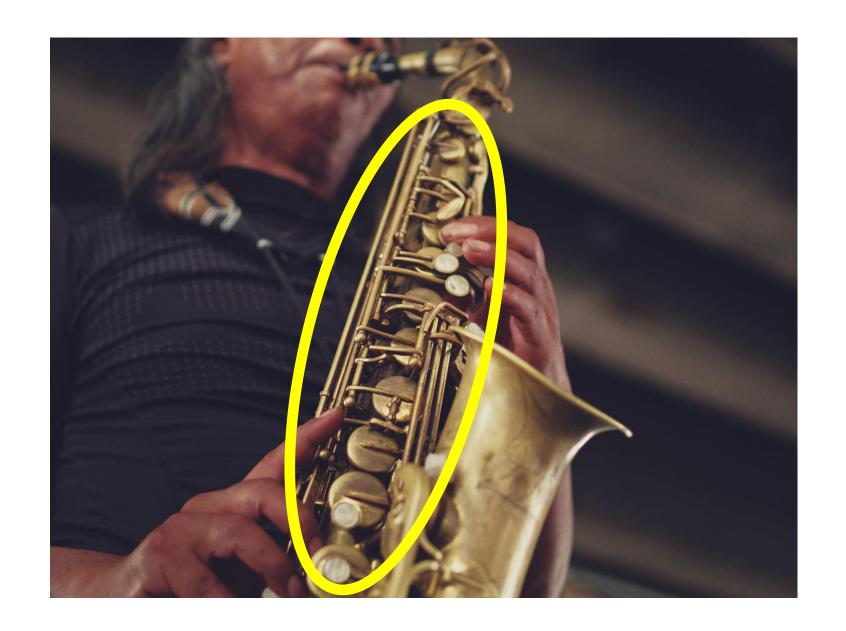

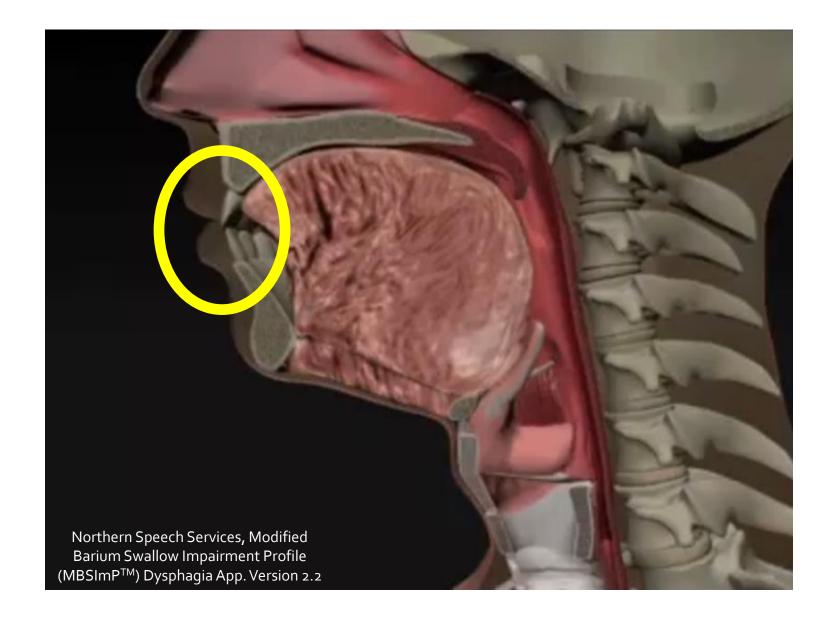

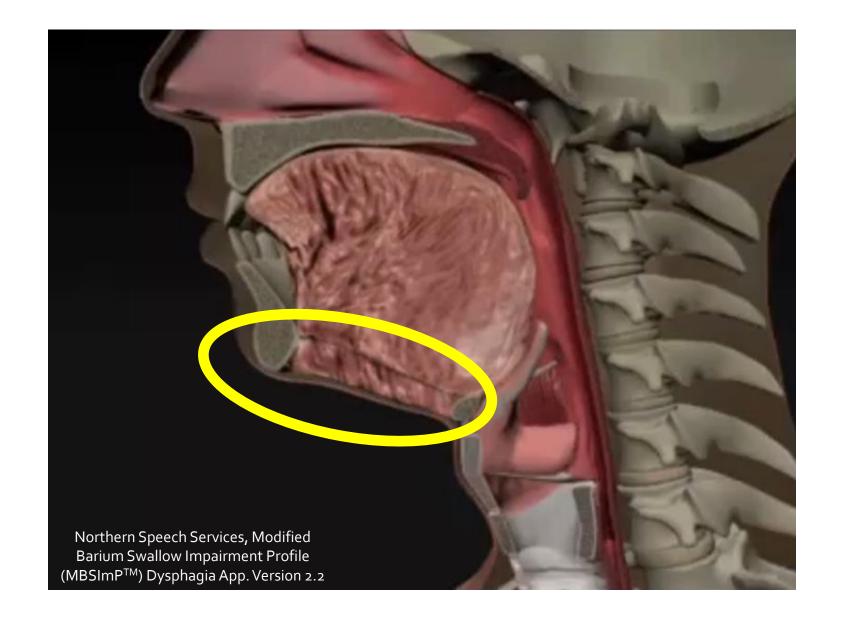

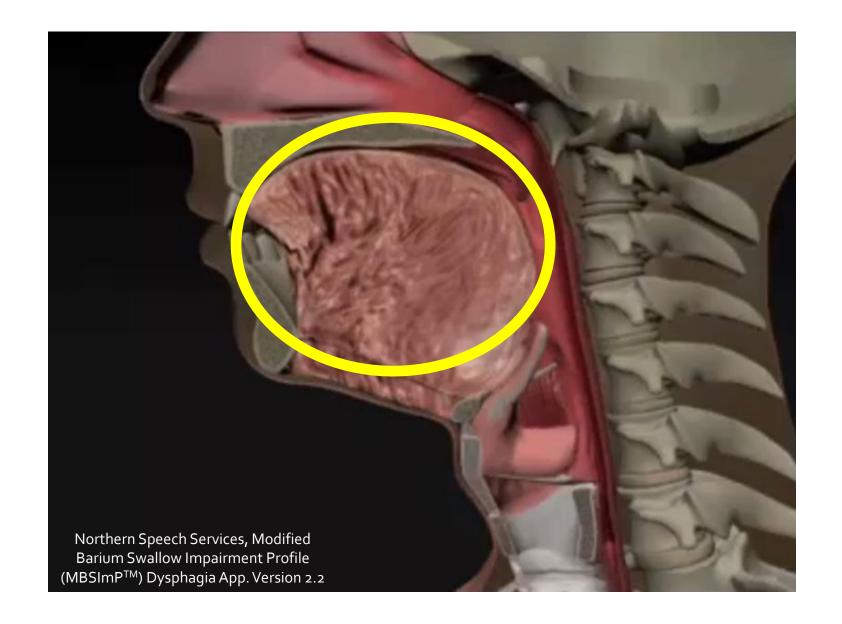

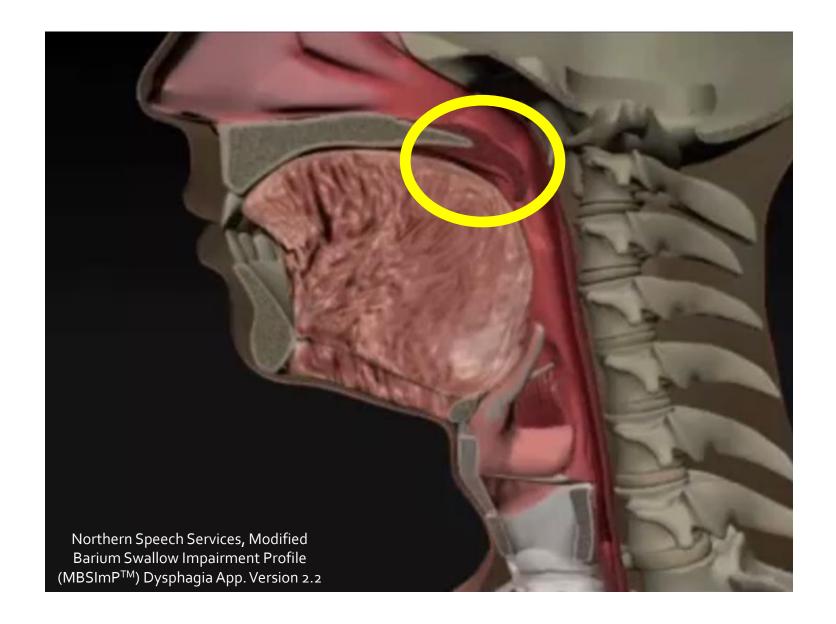

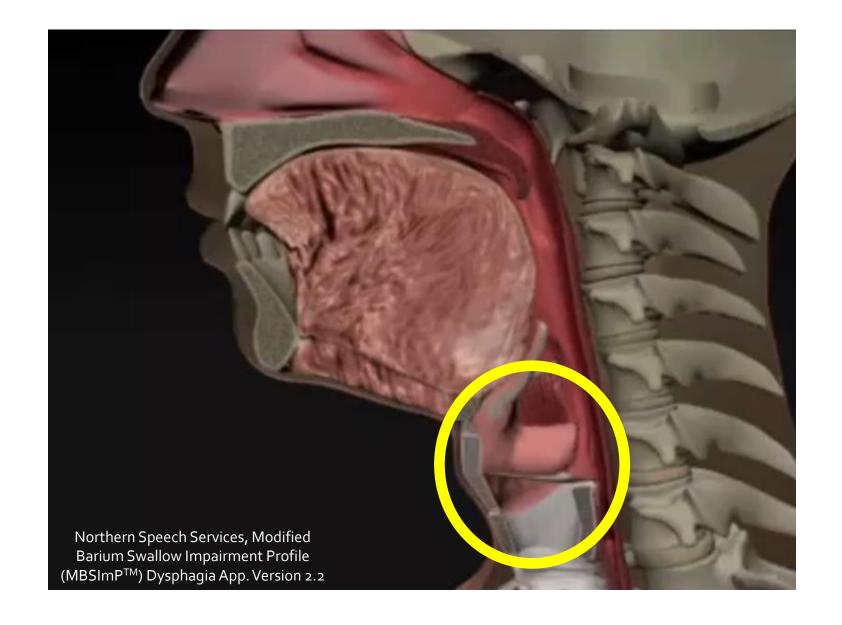

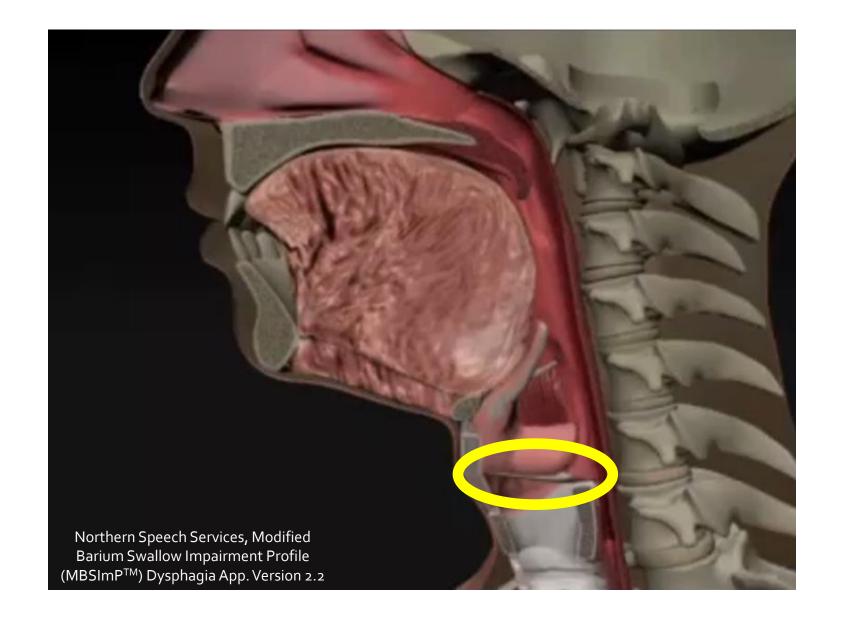

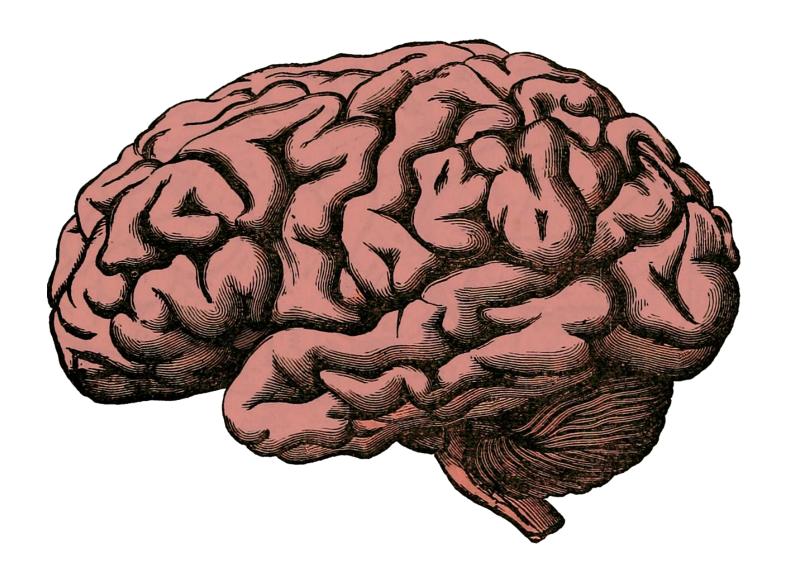

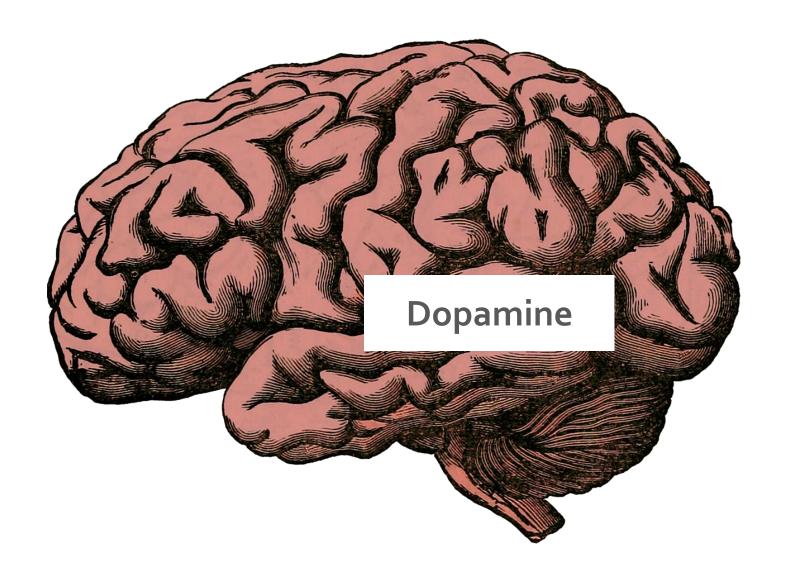

#### Video

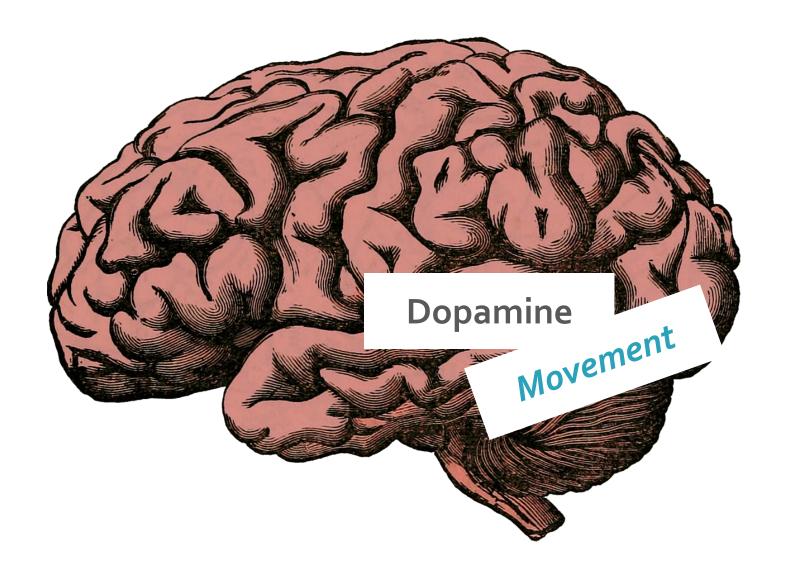

#### **Bethea Medical Media**

# Speech and voice are complex movement tasks

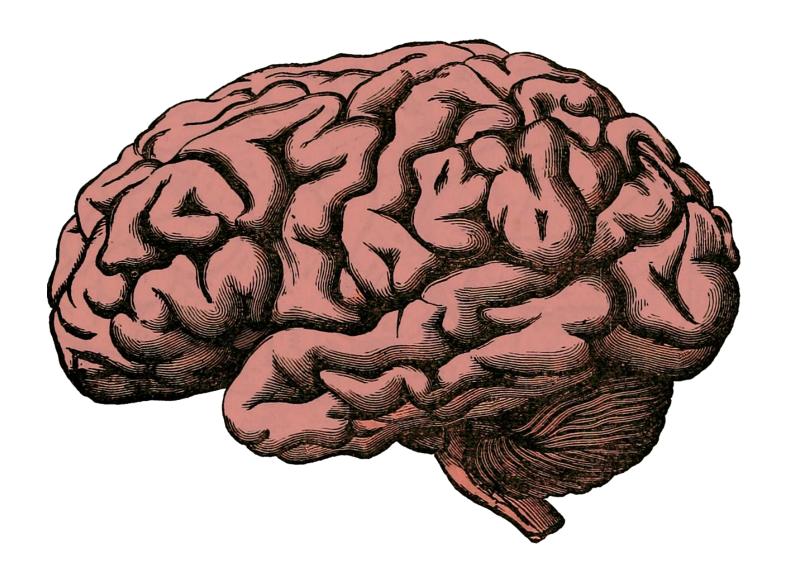

#### Also...

**Facial Expression** 

**Thinking** 

**Automatic Movement** 

**Posture** 

**Esophagus** 

Vocal 'Bowing'

#### Test your knowledge!

A person with PD could have difficulty hearing how their own voice sounds

True or False

#### Test your knowledge!

A person with PD could have difficulty hearing how their own voice sounds

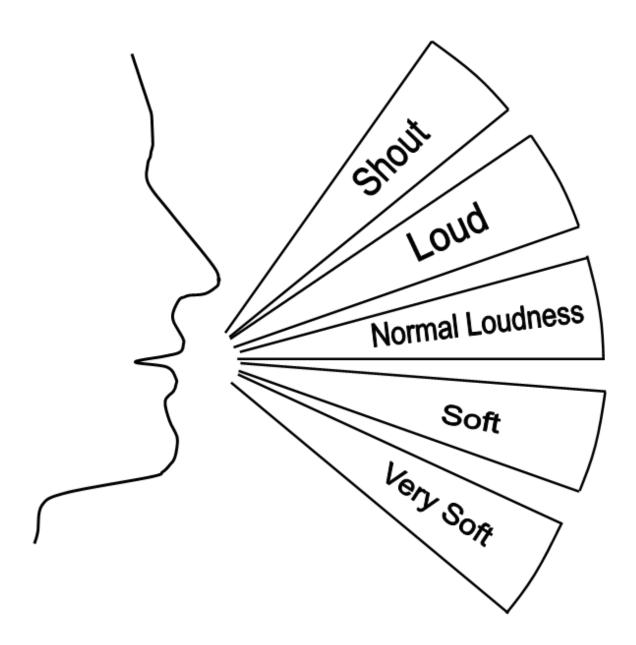

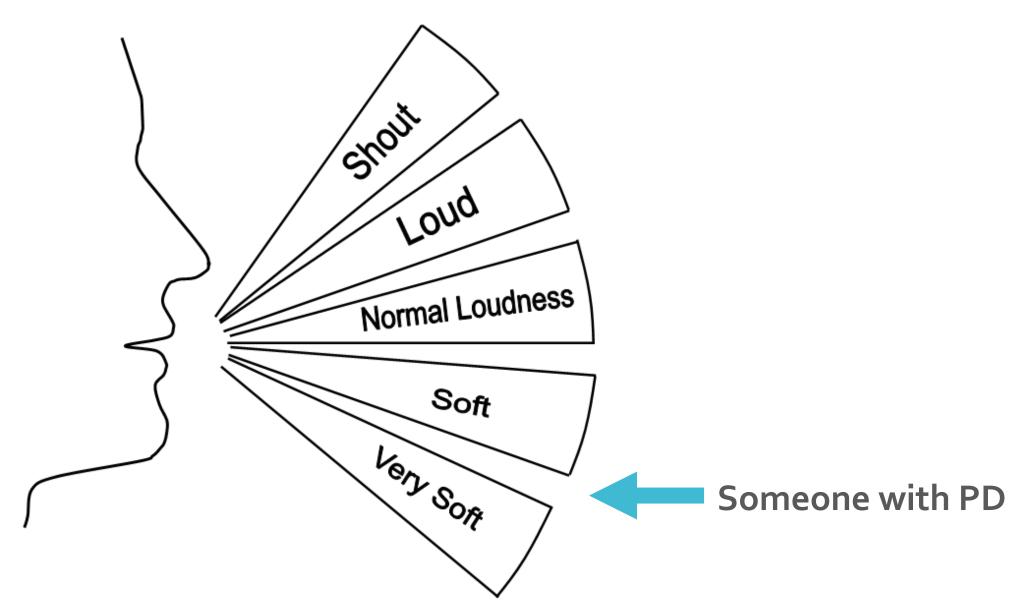

Because of changes in the brain

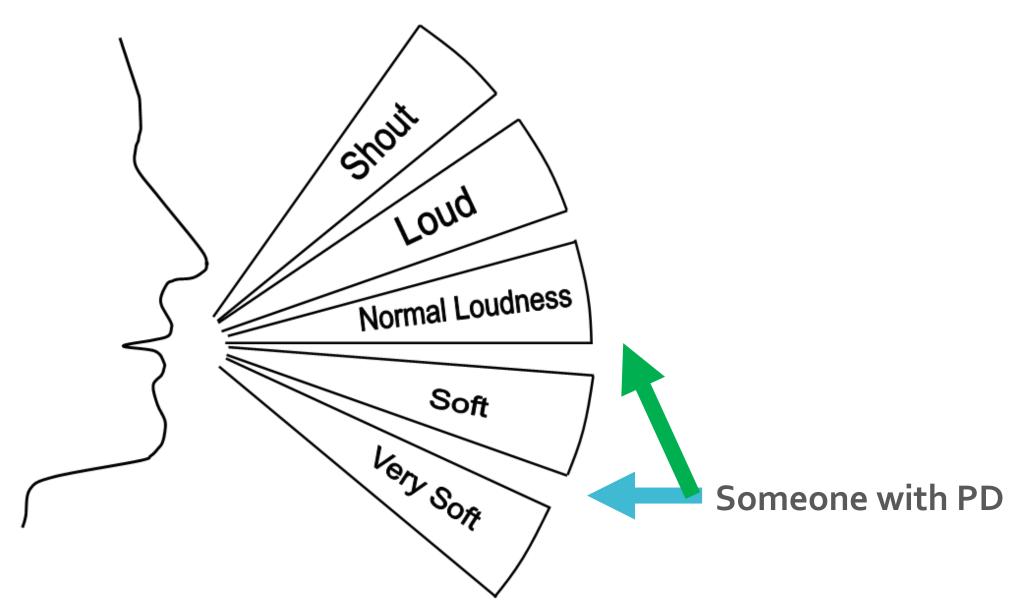

"I feel like I'm shouting"

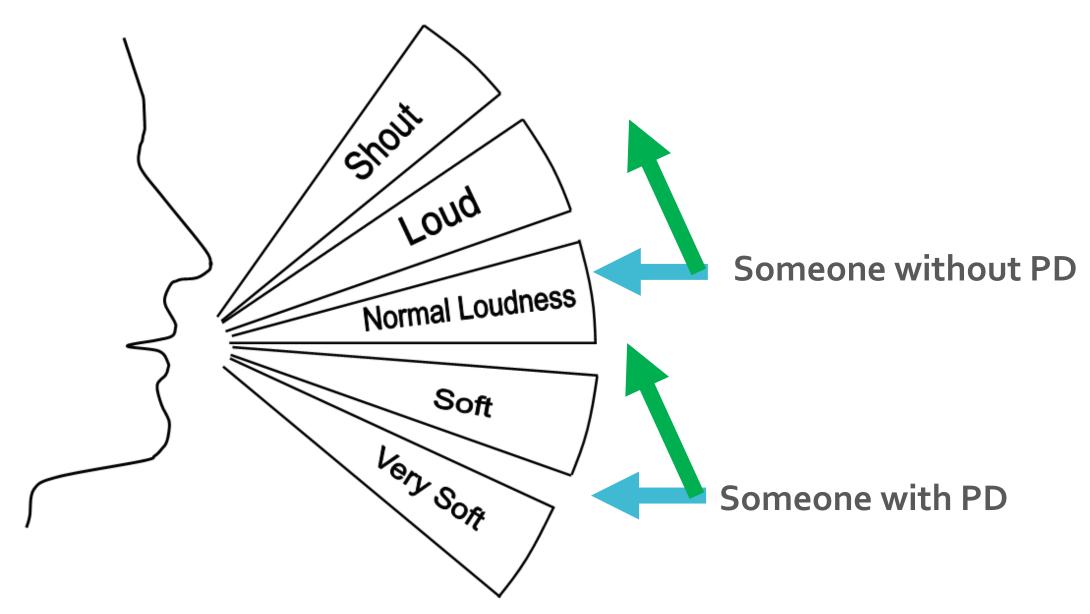

"I feel like I'm shouting"

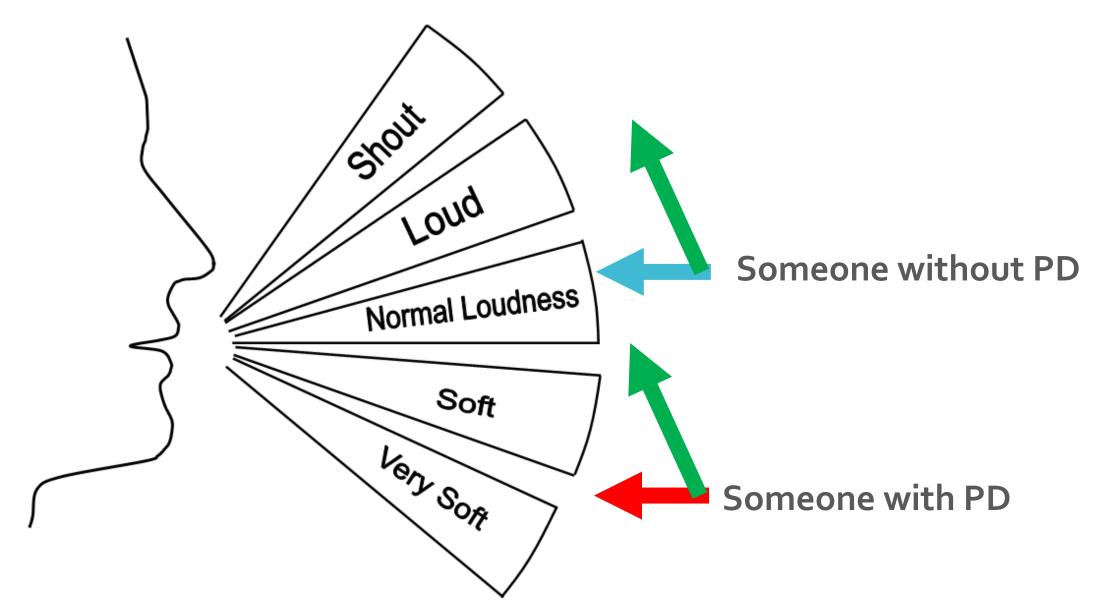

**Calibration Issue** 

#### Notice these?

- Repeating yourself
- Trouble on the phone
- Questioning other's hearing
- Participating less

- Softer voice
- Hoarse or scratchy
- "Trailing off"
- Inconsistent voice
- Speed
- Articulation
- Monotone

- Softer voice
- Hoarse or scratchy
- "Trailing off"
- Inconsistent voice
- Speed
- Articulation
- Monotone

Problems with speech and voice "Dysarthria"

Different types of Dysarthria

## **Hypokinetic Dysarthria**

**Hypokinetic** Dysarthria

"not enough" movement

### **To Consider**

### **Vocal Hygiene**

- Hydration
- Strain
- Rest
- Chronic cough

### **To Consider**

## **Vocal Hygiene**

- Hydration
- Strain
- Rest
- Chronic cough
- · Reflux?

To Consider

Laryngopharyngeal Reflux (LPR)

### Your Team

### SLP might suggest

- Audiology
- Dental Professionals
- Ear, Nose, and Throat Doctor (ENT)
- Gastroenterologist (GI)
- Physician
- Neurology

## Strategies and Options

## **Sections**

- Treatment
- Programs
- More Options
- Strategies

Please note, I do not have any financial relationship with any mentioned products or organizations, including LSVT Global and Parkinson Voice Project, nor am I a representative. Patients interested in pursuing these treatments should consult with their doctor or certified Speech Language Pathologist. Any demonstrations are for informational purposes only, and do not constitute treatment.

You have a secret weapon...

**Treatment** 

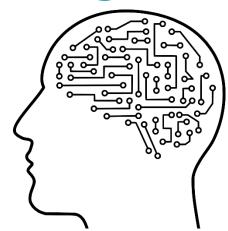

You have a secret weapon...

Neuroplasticity!

## You have a secret weapon...

Neuroplasticity!

Re-wiring the brain

## You have a secret weapon...

Neuroplasticity!

"Use it or lose it"

You have a secret weapon...

Neuroplasticity!

"Use it and improve it"

#### Test your knowledge!

You can start working on your speech and voice early, even if your changes have been minimal

True or False

#### Test your knowledge!

You can start working on your speech and voice early, even if your changes have been minimal

Early intervention can be protective

### Scientifically supported options

Please do not adjust your volume control

#### 16 Individual sessions

- Pacing boards and devices
- Amplifiers and Assistive Technology\* \* \*

The catch...

Dopamine is also linked to motivation

## Strategies

#### For the person with PD...

- Context
- Exaggerate
- Slower and louder than you think
- Shorten
- Be creative, gesture
- Voice activities (singing, acting, reading)

## It Takes Two

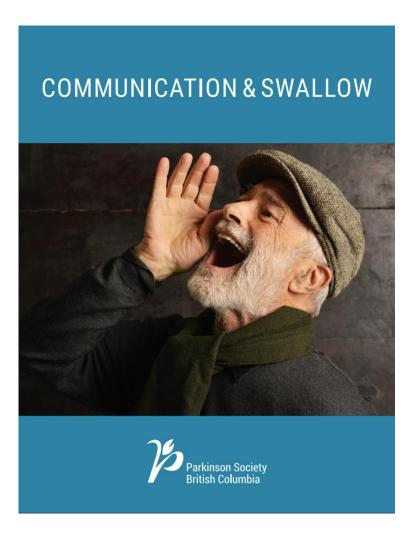

#### For the listener...

- Environment
- Positioning
- Feedback
- Patience
- Verify
- Partner Communication Training
